

IntegerGeneticInterface

```
graph BT; IntegerGenetic --> IntegerGeneticInterface
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'IntegerGeneticInterface' with a dark border and a light gray fill. Below it is a box labeled 'IntegerGenetic' with a light gray border and white fill. A red arrow points from the 'IntegerGenetic' box up to the 'IntegerGeneticInterface' box, indicating that 'IntegerGenetic' implements the 'IntegerGeneticInterface'.
