

NeuralMinimizerInterface

```
classDiagram
    class NeuralMinimizerInterface
    class NeuralMinimizer
    NeuralMinimizer --|> NeuralMinimizerInterface
```

The diagram illustrates a class hierarchy. At the top is a gray rectangular box labeled 'NeuralMinimizerInterface', representing an abstract interface. Below it is a white rectangular box labeled 'NeuralMinimizer', representing a concrete class. A red arrow points from the 'NeuralMinimizer' box up to the 'NeuralMinimizerInterface' box, indicating that 'NeuralMinimizer' implements the 'NeuralMinimizerInterface'.
