

GeneticInterface

```
classDiagram
    class GeneticInterface
    class Genetic
    Genetic --|> GeneticInterface
```

The diagram illustrates a generalization relationship between two classes. At the top is a box labeled 'GeneticInterface' with a thick black border and a light gray fill. Below it is a box labeled 'Genetic' with a thin gray border and a white fill. A dark red arrow points from the top of the 'Genetic' box to the bottom of the 'GeneticInterface' box, indicating that 'Genetic' is a subclass or implements 'GeneticInterface'.
